Dear Mr. Berger:

Thank you for your letter of support for the California Department of Fish and Game's (DFG) application for funding from the Pacific Coastal Salmon Recovery Fund (PCSRF), and request for increased funding. The PCSRF is a valuable partnership tool to help states and tribes in the recovery of West Coast salmon and steelhead populations, allowing the most pressing work to be done at the local level based on state and tribal priorities. And we consider the DFG a crucial partner in the recovery and conservation of salmonids in coastal California.

We have received California's proposal—Pacific Coastal Salmon Recovery Program for California—and are conducting the evaluation under the Broad Agency Announcement published in the *Federal Register* (72 FR 7764). Applicants will be notified of NOAA's decision at the earliest opportunity.

I appreciate your interest in this matter.

Sincerely,

  
for William T. Hogarth, Ph.D.
