**Product Information and Details**

The CST/Berger Electronic Reflectorless Total Station 56-CST302R is a 5-Second Accuracy Reflectorless Total Station.

The CST/Berger introduces CST-300R Series Electronic Reflectorless Total Station offers high-end features in a reliable and affordable instrument. The CST-300R models are easy to use and are ideal for modern surveying, construction staking, mapping and GIS, geomarking, environmental studies as well as industrial applications.

The Total Station provides precise measurement up to 9,842-ft (3000m) with a single prism and 660-ft (200m) without a prism. The 30x powered instrument has a field of view of 1°30' with a minimum focus of 1.3m.

Data input is convenient too with this reflectorless total station. A dual-sided, four line LCD display is easy to read. The alpha/numeric keyboard is easy to use and program. The CST-300R has the added feature of three on-board language choices for multi-lingual environments. Offering improved productivity, the CST-300R Series features powerful On-board software in addition to the freedom of prism-less measurement.

Transferring measurements is simple with the versatility of data transfer the CST-300R Series provides. A SD card slot built into the unit is convenient for use in the field and offers nearly unlimited storage of measurements. Data can easily be downloaded from the instrument to a computer through a USB port, RS-232 port or with a separate card reader. With the CST-

300R Series you can even transfer data wireless in the field through a PDA with a SD card slot.

The CST-300R Series Reflectorless Total Station features a water-resistant housing and are powered by an on-board battery. All the components that accompany the instrument fit into a rugged carrying case.

#### Professional Performance At An Affordable Price

- 2-Second and 5-Second accuracy available
- Working range up to 3000m with single prism
- 200m working range without prism

#### Designed With Durability

- Superior Optics (30x Magnification)
- Water-resistant housing

#### Proven Simplicity

- Easy to target collimator
- Nearly unlimited storage with built in SD card
- USB and RS-232 interface

#### Features

- Easy to target collimator
- Long dual-sided graphic display and alpha/numeric keyboard
- Data upload and data transfer through RS-232 data or USB port
- SD card interface
- Alpha / Numeric keypad

#### Ideal For

- Surveying and Construction
- Mapping and GIS
- Utilities
- Environment Studies
- Geomarketing
- Archaeology
- Accident Reconstruction

#### Includes

Total Station Instrument, Battery Pack, Battery Charger, Plumb Bob, Set of Tools, Carrying Case, Software and Cable, and Instruction Manual.

#### Warranty:

- One year manufacturer's limited warranty
- Manufacturer will extend warranty coverage to two years if product is registered within eight weeks after date of purchase
