reply email will be sent
to you with an attached
form. Fill out this form
and email it back.

Predicting and Estimating Landscape Water Use

Monterey Adult School

222 Casa Verde Way
Monterey, CA 93940

Feb 27th, 2009

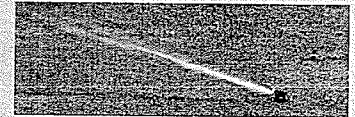

1pm - 5pm

*Feeling the pressure of rising water costs and
increased restrictions on its usage?
Don't let this negatively affect your business!*

- First learn how to use the local weather data and site specific planting and soil information of your site to properly determine its watering needs

- Then understand how to calculate your system's daily, monthly or even yearly water use so you can properly plan and budget for your project.

- Gain practice through hands on class work and realistic case studies

Cost:

\$150

Includes instruction,
class manual and
additional handouts

Registration:
