Re: Projection of City Water Needs

Dear Ms. Pintar:

Del Rey Oaks Staff, consultants and I are diligently reviewing our current General Plan and Housing element to develop a planned build out number that your board has requested from us. However, as I noted at the last TAC meeting, I think that the deadline of December 15, 2004 for you to receive this data is unrealistic.

Any data that we would provide to you must be discussed and approved by the Del Rey Oaks City Council. With the holiday season approaching, and a new Mayor elect about to take over, the City Council agendas will be kept light until after the first of the year. Additionally, I will be out of the office almost the entire month of December. Therefore the earliest that I believe the City Council would entertain discussing this issue would be at their January 25, 2005 meeting.

I hope that the board will understand the complexity of this project and subsequent scheduling it requires.

Sincerely

Ron Langford
Acting City Manager
