Subject: Future Water Needs Estimate

Dear Ms. Pintar:

As we discussed at our Technical Advisory Committee meeting last week, the City of Monterey has nearly completed review of our most recent General Plan update. The draft General Plan contains our estimates for new development through 2020. These estimates provide the basis for the information that we will provide you to calculate our future water needs. However, the City Council has not yet reviewed the draft General Plan and is unlikely to do so until early January 2005. Accordingly, I am requesting that you permit us until Friday, January 28, 2005 to provide our estimates. This extension will provide the new City Council adequate time to review the draft General Plan, as well as our response to your request for our final estimates as outlined in correspondence from David Berger dated October 5, 2004.

Please reply in writing to this request at your earliest possible convenience and, as always, thank you for your attention to this matter.

Please contact me at 646-3437 if you have any questions or require additional information.

Sincerely yours,

Chip Rerig, AICP
Senior Planner
