

**Table XV-1**  
**Regulatory Water Production Targets**  
**for California American Water Systems from Sources**  
**Within the Monterey Peninsula Water Resource System**

(All Values in Acre-Feet)

Month	Monthly Target	Year-to-Date at Month-End Target
October	1,251	1,251
November	984	2,235
December	904	3,139
January	875	4,014
February	800	4,814
March	921	5,735
April	1,023	6,758
May	1,294	8,052
June	1,383	9,435
July	1,490	10,925
August	1,484	12,409
September	1,353	13,762
<b>TOTAL</b>	<b>13,762</b>	---

Note:

Monthly and year-to-date at month-end production targets are based on the annual production limit specified for the California American Water (CAW) systems from Carmel River sources in State Water Resources Control Board Order WR 2009-0060 (10,429 acre-feet) for WY 2010 and an adjusted annual production limit specified for the CAW systems from sources in the Coastal Subareas (3,087 acre-feet) and the Laguna Seca Subarea (246 acre-feet) of the Seaside Groundwater Basin for WY 2010 in the Seaside Basin adjudication decision. This main system total (13,516 acre-feet) was distributed monthly based on CAW's reported monthly average production for its main system during the 1998 through 2007 period and the satellite systems total (246 acre-feet) was distributed monthly based on CAW's reported monthly average production for its satellite systems during the 2000 through 2007 period.
