RECITALS:

- A. The Water Quality, Supply, and Infrastructure Improvement Act of 2014 (Water Code, Sections 79700 - 79798) (Act), approved by the voters as Proposition 1, authorizes the Legislature to appropriate funding for competitive grants for Integrated Regional Water Management (IRWM) projects. Funding is administered by the Department of Water Resources (DWR).
- B. The intent of the Act is to provide funds for projects that are included in an adopted IRWM Plan consistent with Part 2.2 (commencing with Water Code Section 10530) of Division 6, and respond to climate change and contribute to regional water security. In order to improve regional water self-reliance security and adapt to the effects on water supply arising out of climate change, projects funded under the Act are to:
 - (a) Help water infrastructure systems adapt to climate change.
 - (b) Provide incentives for water agencies throughout each watershed to collaborate in managing the region's water resources and setting regional priorities for water infrastructure.
 - (c) Improve regional water self-reliance.
- C. The Regional Water Management Groups in the Santa Cruz Region, the Pajaro Region, the Greater Monterey County Region, the Monterey Peninsula Region, the San Luis Obispo County Region, and the Santa Barbara Region comprise the six Parties. The boundaries of each Region are shown in **Attachment A**.
- D. The primary intent of the six Parties to this MOA is to share future Proposition 1 funding for the IRWM grant program among the six Parties in a fair and equitable manner. Each Party will independently determine and prioritize projects to be funded within its Planning Region consistent with the legislative intent for a competitive grant program. This MOA is also intended to reduce the need for the Parties to compete against each other for grant funds, which creates unnecessary economic inefficiencies in implementing each Planning Region's IRWM Plan.
- E. DWR may establish standards to guide the selection and funding of IRWM projects within the Funding Area. Project selection for funding will be consistent with Water Code section

EXHIBIT 1-B

79742.

- F. Each Party has an accepted IRWM Plan and desires close coordination to enhance the quality of planning, identify opportunities for supporting common goals and projects, and improve water supply reliability, water quality, and environmental stewardship to meet current and future needs in each Planning Region. The Parties will coordinate and work with their advisory groups to identify projects of value across or within Planning Regions, identify funding for highly ranked projects, and support implementation.
- G. The Parties each desire to retain autonomous control over how funds are allocated within their respective regions, but recognize the potential to improve inter-regional cooperation and efficiency. Since 2005, the Parties have worked to improve the IRWM planning process in the Funding Area, to coordinate planning across Planning Region lines, and to facilitate the distribution of funding for IRWM projects by DWR within the Funding Area.
- H. The Parties will coordinate on grant funding requests by each of the Parties to ensure that the sum of the total grant requests from the Funding Area does not exceed the amount allocated to the Funding Area.

NOW, THEREFORE, the Parties acknowledge that the above recitals are true and correct and hereby incorporated herein by this reference and further agree as follows:

1. Definitions

The following terms and abbreviations, unless otherwise expressly defined in their context, shall mean:

A. Funding Area – The 11 regions and sub-regions referenced in Water Code section 79744 (a) and allocated a specific amount of funding to support IRWM activities. The Central Coast Funding Area incorporates lands in the Central Coast Regional Water Quality Control Board jurisdiction as of 2004, including portions of the counties of Santa Clara (south of Morgan Hill), San Mateo (southern portion), Santa Cruz, San Benito, Monterey, Kern (small portions), San Luis Obispo, Santa Barbara, Ventura (northern portion).

B. Regional Water Management Group (RWMG) – RWMG means a group in which three or more local agencies, at least two of which have a statutory authority over water supply or

EXHIBIT 1-B

water management, as well as those persons who may be necessary for the development and implementation of an IRWM Plan. An RWMG is the documented leader of IRWM planning and implementation efforts in a Planning Region.

C. Planning Region – The geographic area in which the IRWM regions will conduct their respective coordination and integration of stakeholders, agencies and projects. The boundaries of the six Planning Regions in the Funding Area are shown in Attachment A.

D. Overlap Areas – Identified areas within adjacent Planning Regions that may be part of a common watershed or jurisdictional area within an adjacent Planning Region. Overlap Areas are identified in each respective Planning Region IRWM Plan and should be subject to special coordination and collaboration between adjacent Planning Regions to ensure maximum benefits in each respective Planning Region.

E. Overlap Projects – Projects identified in an IRWM Plan as valuable and benefiting from cross boundary (interregional) coordination.

F. Responsible Agency – The Agency designated within each RWMG to represent each Party to this Agreement.

F. IRWM Plan – A comprehensive plan for a defined geographic area, the specific development, content, and adoption of which shall satisfy requirements developed pursuant to this part. At a minimum, an IRWM Plan describes the major water-related objectives and conflicts within a region, considers a broad variety of resource management strategies, identifies the appropriate mix of water demand and supply management alternatives, water quality protections, and environmental stewardship actions to provide long-term, reliable, and high-quality water supply and protect the environment, and identifies disadvantaged communities in the region and takes the water-related needs of those communities into consideration (Water Code §10530 et seq., in particular §10534).

G. Disadvantaged Community (DAC) – a community with an annual median household income that is less than 80 percent of the Statewide annual median household income (Water Code §79505.5).

EXHIBIT 1-B

2. Formula for Sharing Funds

A. The Funding Area has been allocated **\$43 million** through Proposition 1 for the IRWM program administered by DWR. This allocation includes the following breakdown:

DWR Administration Fee - 7% of Funding Area Total	\$ 3,010,000
DAC Funding - 20% of Funding Area Total	\$ 8,600,000
DAC engagement (non-competitive)	\$ 4,300,000
DAC project implementation (competitive)	\$ 4,300,000
Implementation and Planning Grants	\$ 31,390,000

B. For the purposes of this MOA, the formula for sharing funds among the Parties will be based on the following: one-half (1/2) of funds are equally split among the Parties; one-quarter (1/4) of funds are split based on population percentage of each Planning Region based on 2009-2013 American Census Data; and one-quarter (1/4) of funds are split based on the percentage of area in square miles of each Planning Region. The division of funding shall be consistent with **Attachment B**.

3. General Planning Cooperation

All Planning Regions will meet prior to providing feedback to DWR on Proposed Guidelines for the IRWM Program and before submitting applications for grant funding from DWR. The number of meetings will depend on the amount and intensity of planning and coordination efforts of the Planning Regions. The purpose of these meetings will be to enhance the quality of planning, identify opportunities for supporting common goals and projects, and to improve integrated water management efforts in the Funding Area. The planning efforts will support integration and coordination across Planning Regions.

4. Coordination of Submittals and Applications

Each Planning Region should contain a reference to this MOA in each grant application submittal to the IRWM grant program.

5. Common Programs

Common programs found to be of high value for some or all Planning Regions will be identified

EXHIBIT 1-B

and considered for high priority placement in the Planning Region's ranking of projects for funding. These may include programs to address Disadvantaged Community issues, Overlap Projects, and shared responsibilities for management of watersheds that cross Planning Region boundaries. While each Planning Region will select projects in accordance with its own process, the Planning Regions may cooperate on the implementation of common projects or programs if these efforts are selected for funding.

Each Planning Region is encouraged to invite representatives from the adjoining Planning Regions to participate as a non-voting member in its determinations of projects and programs affecting Overlap Areas. The intent of this section is to promote understanding, communication and coordination between and among Planning Regions.

6. Scope of the Agreement

Nothing contained within this MOA binds the Parties beyond the scope or term of this MOA unless specifically documented in subsequent agreements, amendments or contracts. Moreover, this MOA does not require any commitment of funding beyond that which is voluntarily committed.

7. Term of Agreement

The term of this MOA is from its Effective Date shown above until all funds allocated to the Funding Area as shown in Attachment B have been awarded by DWR to the Funding Area, unless extended by mutual agreement of the Parties.

8. Modification or Termination

This MOA may be modified or terminated with the written concurrence of all Parties.

9. Change of Responsible Agency

It is recognized that any Responsible Agency may wish to withdraw from the responsibilities described in the terms of this MOA. It is the intent of the Parties to each maintain a Responsible Agency to represent the interests of their respective Planning Region and Regional Water Management Group to implement the terms of this MOA. Any Responsible Agency that intends to withdraw from this MOA shall give a 30-day notice to the other Parties and should designate a successor agency as a Responsible Agency.

Attachment B Allocation of Proposition 1 Funds

Each of the six Planning Regions has IRWM project and program needs that far exceed the funding allocated to the Funding Area. Significant local match funding for selected projects is available in each Planning Region. Funding for planning and timing of implementation may vary among the Planning Regions. Because of these factors and because not all of the Proposition 1 funding will be made available at the same time, the Parties will cooperate and coordinate on individual funding cycle applications to ensure that the sum of the total grant requests does not exceed the amount identified for the Funding Area in any given cycle. Total allocations to the Parties will be divided according to the schedule below. The allocations to the six Planning Regions are indicated in percentages of the total funds that will be available over the life of the program.
