

Water Use Credit Application (District Rule 25.5)

Applicant must provide sufficient information for District staff to quantify the Water Use Credit, including: 1) Evidence of permanent removal of the previous use, such as MPWMD inspection report identifying the fixtures/use, building permits or demolition permits from the Jurisdiction, and in some cases, video tapes or dated photographs of the abandoned use; and, 2) five years of consumption records from the water purveyor (Non-Residential Uses). District staff may request additional information as needed, and additional fees may apply if an independent review of the proposed retrofit is necessary as occurs when retrofits involve new or unproven technology.
