

District Website Redesign

Presented by Steve Thomas May 18. 2015

In today's society, the public's demand for instant information has become the driving force behind the decision-making process for businesses, organizations and public agencies

If not satisfied that their needs are met, the public will often create a negative connotation within their sphere

After extensive discussion with District Staff and the general public, the following website needs were identified:

- Clean and Modern Feel
- Easy Access to Information
- Easy Updates by Staff
- Mobile-Responsive
- Transparency with Best Management Practices

Redesign following California Special District Association Transparency Checklist:

- ADA Compliant
- Multiple Pathways to Information
- Staff Contact Information
- Board Contact Information

New Site Will Include:

- Reorganization of Information
- Consistent Document Titles and Formatting
- Social Media Links
- Promotion of Information Updates
- Mobile-Responsive Technology
- Emphasis on Ease of Use for Public
