On a motion by Director Doyle and second of Director Markey, the committee voted unanimously to present the ordinance to the Board of Directors with two amendments that would facilitate preparation of a mitigated negative declaration: (1) tolling the expiration date of water credits until a water supply project is on line that would provide water to off-set the use of water credits; and (2) the water credit received for installation of low-flow fixtures will expire when voluntary installation of those fixtures is superseded by laws that mandate installation.

On a motion by Director Brower and second of Director Doyle, the committee recommended that the guidelines be amended as proposed by staff along with other modifications as follows: (1) the applicant must provide two years of water records for the property associated with the rebate; and (2) applicants must sign an affidavit certifying that information provided on the application is true. The motion was approved on a vote of 2 – 1. Directors Brower and Doyle voted in favor of the motion. Director Markey was opposed.
