November 17, 2025

To the Honorable Chair, Board of Directors, and Residents  
of Monterey Peninsula Water Management District,

We are pleased to present the Monterey Peninsula Water Management District's (MPWMD or District) Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2025. The ACFR gives an assessment of the District's financial condition, informs readers about District services and projects, discusses current issues, and provides financial and demographic trend information.

The California Government Code requires an annual independent audit of MPWMD's financial statements by a Certified Public Accountant. The District's financial statements have been audited by The Pun Group LLP (auditor). The auditor's opinion is included in the financial section of this ACFR.

This report was prepared by the Financial/Administrative Services Division in conformance with the principles and standards for financial reporting set forth by the Governmental Accounting Standards Board (GASB). To the best of our knowledge and belief, the data as presented is accurate in all material aspects and presented in a manner designed to fairly set forth the financial position and changes in the financial position of the District as measured by the financial activity, including disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs. While the independent auditors have expressed an unmodified ("clean") opinion that MPWMD's financial statements are presented in conformity with accounting principles generally accepted in the United States of America (US GAAP), responsibility for both the accuracy of the presented data and completeness and fairness of the presentation, including all disclosures, rests with the District.

### ***Profile of the District***

The District is a special district created in 1977 by the California Legislature and ratified by local voters in 1978. The District has four primary responsibilities. The first is to augment and manage the development of potable water supplies and the delivery of this water to users in the Monterey Peninsula area. The second is to promote water conservation. The third is to promote water reuse and reclamation of stormwater and wastewater. The fourth is to protect the environmental quality of the Monterey Peninsula area's water resources.

The District serves approximately 106,000 people within the cities of Carmel-by-the-Sea, Del Rey Oaks, Monterey, Pacific Grove, Seaside, Sand City, Monterey Peninsula Airport District, and portions of unincorporated Monterey County, including Pebble Beach, Carmel Highlands, and Carmel Valley.

The District has an authorized staff of 26 full-time employees providing services within its jurisdiction. The District is made up of the following sections: General Manager's Office, Financial/Administrative Services, Water Resources, Environmental Resources, and Water Demand.

### ***Governance***

MPWMD is a public agency (special district) governed by a seven-member Board of Directors (Board), five elected from the District's voter divisions, one member of the Monterey County Board of Supervisors, and one elected official or chief executive officer appointed by a committee comprised of mayors from jurisdictions within the District boundaries. The elected board members serve staggered four-year terms. Annually, a Chair and Vice Chair are chosen among the Board members. MPWMD operates under a Board-Manager form of government. The Board of Directors appoints the General Manager, who is responsible for the administration of the District. The General Manager organizes and directs District activities in

accordance with the Board's policies.

The Board meets in a regular session on the third Monday of each month. Regular meetings are held at 6:00 p.m. at the Monterey Peninsula Water Management District, Conference Room, 5 Harris Court, Building G, Monterey, California. Board meetings are open to the public.

### ***Budget Process***

Annually, the District prepares and adopts an operating and capital budget and updates its three-year Capital Improvement Program (CIP). Both serve as the District's financial planning and fiscal control. Budgets are adopted on a basis consistent with Governmental GAAP. Budgetary controls are set at the fund level and are maintained to ensure compliance with the budget approved by the Board of Directors. The District's budget is a detailed operating plan that identifies estimated costs in relation to estimated revenues. The budget includes the projects, services, and activities to be carried out during the fiscal year and the estimated revenue available to finance these operating and capital costs. The budget represents a process wherein policy decisions made by the Board of Directors are adopted, implemented, and controlled. Budget control is maintained through the use of project codes and account appropriations. Actual expenditures are then compared to these appropriations on a monthly basis. The General Manager or the Chief Financial Officer has the discretion to transfer appropriations between activities. Board approval is required for any overall increase in appropriations or changes to the Capital Improvement Program. Additionally, a mid-year budget adjustment is prepared and presented to the District's Board for adoption.

### ***Economic Condition and Outlook***

The District anticipates generating sufficient revenue to cover the cost of providing services through its primary revenue sources, including property taxes, user fees, water sales, permit charges, capacity fees, and reimbursable grant funds in the coming year. Although the District will no longer collect water supply charges through the County due to the Appellate Court settlement in September 2024, the projected loss in revenue is expected to be offset by gradual increases in user fees, collected as a percentage of water charges. These increases will generally be driven by higher annual water rates adopted by the water utility provider, California American Water (Cal-Am). Water demand is a key component of rate-related revenues. Customer demand for 2025 resulted in a production total for the year of 9,092 AF of drinking water, the lowest demand since 1957. Water supply sources included 3,680 AF from Pure Water Monterey, 3,291 AF from the Carmel River, 1,684 AF from Seaside Groundwater sources, and 164 AF from the Sand City Desalination Facility. At the end of the fiscal year, the District had 2,353 AF stored in the Pure Water Monterey Operating Reserve and 4,392 AF in the Aquifer Storage and Recovery banked storage.

As a result of legal and regulatory constraints on the Carmel River and Seaside Aquifer over the last twenty-five years, long-term water supplies available to Monterey Peninsula customers from these sources were reduced. As part of new replacement water supplies, the Pure Water Monterey (PWM) project, funded and built by Monterey One Water, MPWMD (District), and Marina Coast Water, now provides 60% of the Peninsula's water. The PWM Expansion that came online in 2025 provides replacement water supply to meet needs for decades, or at least sufficient to provide an adequate bridge until a desalination plant is fully permitted and built.

The District in 2025 began the groundwork needed to lift the State's cease and desist order (CDO) against Cal-Am and the moratorium on service connections for new housing. The new supply (over and above existing demand) was allocated to local cities and other jurisdictions in March 2025 through a process led by the District and the passage of Ordinance 197.

### ***Major Initiatives***

During the current fiscal year, the District continued, completed, or initiated a number of significant projects, which include the following:

Pure Water Monterey Project (PWM) – The District provided funding and planning assistance to the Project, working in partnership with Monterey One Water, which owns and operates the system. Since the inception of the PWM project in 2020 through the end of water year (WY) 2025, a total of 19,734 acre-feet (AF) of advanced purified water was injected into the Seaside Groundwater Basin. Of the injected water, Cal-Am recovered 17,381 AF for customer service, and 2,353 AF was allocated to the Operational Reserve.

In WY 2025 alone, 3,843 AF of PWM water was injected, with Cal-Am recovering 3,680 AF for customer service and the remainder allocated to the Operational Reserve. Also in WY 2025, an additional 423 AF of recycled water was delivered directly to Marina Coast Water District and the City of Seaside for golf course irrigation, freeing up an equivalent amount of potable water supply.

Aquifer Storage and Recovery (ASR) – Since the inception of the ASR program in 1998 through the end of WY 2025, a total of 14,668 AF of Carmel River water was diverted for storage in the Seaside Groundwater Basin. Water has been recovered as allowed by State Water Board Orders and the Quarterly Water Budget process. In WY 2025 alone, 716 AF of Carmel River water was diverted to storage with Cal-Am recovering none for customer service. At the end of WY 2025, a total 4,392 AF of stored ASR water remains available for customer service. Cal-Am continued to use District facilities to treat produced waters recovered from the ASR and Pure Water Monterey projects.

Integrated Regional Water Management (IRWM) Program – MPWMD continues to manage grants for the Monterey Peninsula. Duties include: (a) Application coordination and submission; (b) Agreement execution and coordination with the California Department of Water Resources; (c) Invoicing, with documentation, on behalf of the Local Project Sponsors; and (d) Reporting.

In 2024 and 2025, two grants were expended by the District for the benefit of the Pure Water Monterey Expansion project: 1) Urban Community Drought Relief Grant from the Department of Water Resources for \$11,935,200, and 2) Directed Assistance Grant coordinated by the State Water Resources Control Board for \$4,800,000.

Also in 2024, the District managed an Integrated Regional Water Management (IRWM) Implementation Round 2 Grant for the Monterey Peninsula region for \$1,488,961. The two project recipients are: 1) Carmel River Floodplain Restoration and Environmental Enhancement (Carmel River FREE), sponsored by Monterey County, and 2) the Olivier Street Stormwater Diversion Project, sponsored by the City of Monterey.

An IRWM Implementation Round 1 Grant from 2021 will be used in 2025 for construction of the West End Stormwater Improvement Project located in a disadvantaged community and sponsored by the City of San Diego.

Legally-Mandated Carmel River Mitigation and Stewardship – In 2025, the District successfully carried out its Mitigation Program required by the 1990 Water Allocation Environmental Impact Report. This program is designed to preserve the ecological integrity of the Carmel River by alleviating impacts associated with water extraction for the community's water supply. The program includes river restoration activities, monitoring, and rescuing threatened steelhead from drying portions of the Carmel River and tributaries. This comprehensive program tracks changes in the riparian corridor, steelhead population, depth to groundwater, river flow, and the lagoon environment.

The District continued to monitor dry-back conditions due to impacts from groundwater withdrawal and successfully rescued 7,470 juvenile steelhead from the Carmel River Basin in 2025. The fish were released into the Carmel River in perennial waters and rescued fish were implanted with passive integrated transponder (PIT) tags before their release to track their migration and survival. These data are used as performance indicators of the program.

Staff continued to work with the National Marine Fisheries Service (NMFS) on field studies to develop a

steelhead population life history model for the watershed. This is based on tagged fish from NMFS' studies, District fall population surveys, and rescued fish from both the District and the Carmel River Steelhead Association. This effort included installing tag detection stations (arrays) from the lower valley to below Los Padres Reservoir. District fall population densities trended at just above average this season, and 1,290 fish were implanted with PIT tags to support these studies and help elucidate long-term trends on steelhead survival.

Staff continued long-term efforts to monitor water quality conditions and fish passage in the Carmel River Basin to assess impacts to habitat from municipal and private pumping along the Carmel River. The District also carried out a wetland survey of the Carmel River lagoon area to document long-term trends associated with water extraction.

In late fall, District crews carried out the Vegetation Management Program in the active channel of the Carmel River to prevent debris dams and erosion. This work is carried out with a Regional General Permit from the Army Corps of Engineers and a Routine Maintenance Agreement with the California Department of Fish and Wildlife. Vegetation Management includes trimming back encroaching vegetation and reducing the hazard of downed trees by cutting them into smaller sections in preparation for winter flows. In addition, trash and plastic were removed from the active channel of the river before winter rain washed them into the ocean. The District also assisted property owners along the Carmel River by evaluating streambanks for stability after high erosive stream flows and recommended.

The District also approved three Water Distribution System Permit amendments. The Main Cal-Am System was amended to produce 13.0 Acre-Feet annually of the City of Seaside's stored water credit under Seaside's In-Lieu Groundwater Storage Program for the Ascent housing project, now known as "Seagrove." The second amendment was to increase the number of Connections for five Accessory Dwelling Units and irrigation at Wolters Farm Way in Carmel Valley. The third amendment was to set System Limits and add a Residential Use to the Scarlett WDS Permit. Eleven Confirmation of Exemptions from the Water Distribution System permit requirements were issued for private properties that met the criteria.

Inspections: Staff completed 511 property inspections to verify compliance with water efficiency standards for changes of ownership and use, and 1,177 inspections were done to verify compliance with Water Permits. Staff mailed notices to property owners and businesses and conducted 47 Non-Residential property inspections to verify compliance with water efficiency standards. As the regional entity responsible for compliance with State landscaping regulations, the District issued 48 Water Permits for new and refurbished landscapes. A total of 625,284 square feet of new landscape area was permitted. The rehabilitated area totaled 349,578 square feet.

Conservation and Permits– The District approved 1,080 rebate applications for \$318,467 for quantifiable annual savings of 7.6 AF of water. Properties transferring ownership continued to self-certify compliance with the water efficiency requirements, and the District provided Certifications of Compliance as verification. The District issued 731 Water Permits and 94 Water Use Permits to Benefited Properties (i.e., properties eligible to receive a portion of a Water Entitlement).

The District provided 13 online courses on conservation topics including rainwater capture, composting to improve soil water holding capacity, landscape design, greywater, protecting trees, irrigation basics, and removing lawns. Staff distributed water conservation devices at various community events, including the Carmel Valley Fiesta, Monterey County Fair, and the West End Celebration. The District posted regular updates to its Facebook page and Instagram account. As a partner with the Water Awareness Committee for Monterey County, the District participated in presentations and assemblies at local schools.

Community Outreach – To help the public better understand the role of the District in water supply, conservation, and environmental protection on the Monterey Peninsula, the District ran monthly ads in the local newspapers, posted on social media, and produced a regular email newsletter. The District also actively engaged with local media on water supply projects, the public's acquisition of the Cal-Am water system

(Measure J), and other relevant topics.

Summer Splash – Entries were similar to the previous year for the 2025 Summer Splash Challenge, a fun family-oriented conservation game sponsored by the District in partnership with Cal-Am. Prizes included a High-Efficiency Clothes Washer, High Efficiency Dishwashers, an iPad, Home Depot Gift Cards, and VISA Gift Cards. The game was designed for families and launched in the summer when children were out of school. The Challenge was to complete an educational gameboard where participants visited the event website and watched water efficiency videos to find the answers to gameboard questions. Look for the 2026 Challenge this summer!

Measure J – In November 2018, voters passed an initiative requiring the District to acquire the local water supply and distribution facilities of California American Water, if feasible. In 2021, the District prepared an application to the Monterey County Local Agency Formation Commission (LAFCO) to annex 58 parcels (Yankee Point and Hidden Hills), update its Municipal Services Review (MSR), and to “activate” the District’s authority to provide water service directly to end-use customers. LAFCO approved the annexation and MSR but denied the activation of powers. The District challenged that denial in a petition for writ of review filed in April 2022. The District prevailed, and LAFCO was directed by the Court to vacate the denial. While the LAFCO lawsuit was pending, MPWMD Filed an eminent domain action in Monterey County Superior Court in December 2023 that remains pending.

The CAWD/PBCSD Reclamation Project – The District is a participant in the Carmel Area Wastewater District (CAWD)/Pebble Beach Community Services District (PBCSD) Reclamation Project (the Project), which is a cooperative effort that involves the CAWD, the PBCSD, and the Pebble Beach Company. The project did not create a new or separate legal entity; therefore, the Project is included as a Proprietary (Enterprise) Fund of the District, the issuer of the Certificates of Participation which financed the project. The Project’s 2025 financial statements are being audited by The Pun Group, LLP.

More financial information is available under Management Discussion and Analysis included in the Financial Section.

### ***Internal Control***

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft, or misuse. The internal control structure also ensures adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The District’s internal control structure is designed to provide reasonable assurances that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

### ***Investment Policy***

The Board of Directors annually adopts an Investment Policy that conforms to California State Law, District ordinances and resolutions, prudent money management, and the “prudent investor” standards. The objectives of the Investment Policy are safety, liquidity, and yield. District funds are normally invested in the State Treasurer’s Local Agency Investment Fund (LAIF), Certificates of Deposits, and Money Market accounts.

### ***District Revenues***

District’s major funding sources are: Property Taxes, User Fees, PWM Water Sales, Permit Processing Fees, Project Reimbursements, Grants, and others. Property tax allocations are collected and remitted by the County of Monterey. The Water Supply Charge, a fee collected on property tax bills to fund water supply projects, was levied by the District on property tax bills and was discontinued in FY 24-25 following an Appellate court ruling. The District user fee is paid by the ratepayers of the California American Water Company. Project

reimbursements are mostly collected from the California American Water Company ratepayers. Grant revenues are received from the State Water Resources Control Board and the Department of Water Resources to reimburse the expansion of the Pure Water Monterey project.

### ***District Expenses***

The District's expenditures are classified into the following major categories: Salaries, Employee Benefits and Other Personnel, Project Expenditures, Operating Expenditures, Professional Fees, Capital Outlay, and Debt Service.

### ***Independent Audit***

State Law requires the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of The Pun Group, LLP has conducted the audit of the District's financial statements. The audit was conducted in accordance with auditing standards generally accepted in the United States of America. The firm's report has been included in the financial section of this report.

### ***Other References***

More information is contained in the District's management discussion and analysis and the notes to the basic financial statements found in the financial section of this report.

### ***Awards***

#### ***GFOA Award***

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Monterey Peninsula Water Management District for its annual comprehensive financial report for the fiscal year ended June 30, 2024. This was the tenth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

### ***Acknowledgements***

The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the District. We appreciate the dedicated efforts and professionalism that these staff members contribute to the service of the District's customers. We would also like to thank the members of the Board of Directors for their continued support in the planning and implementation of the Monterey Peninsula Water Management District's fiscal policies.

Respectfully submitted,

David J. Stoldt

## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
of the Monterey Peninsula Water Management District  
Monterey, California

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the financial statements of the governmental activities, the business-type activities, and each major fund of the Monterey Peninsula Water Management District (the "District") as of and for the year June 30, 2025, and the related notes to the basic financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the District, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis*, *Budgetary Comparison Schedules*, *Schedule of Changes in the Total OPEB Liability and Related Ratios*, *Schedule of the Proportionate Share of the Net Pension Liability*, and the *Schedule of Contributions - Pension* be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the Introductory and Statistical Sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

***Report on Summarized Comparative Information***

We did not previously audit the District's financial statements for the year ended June 30, 2024. Those numbers were based on the audit of other auditors who expressed unmodified audit opinions on the respective financial statements of the governmental activities, the business-type activities, and each major fund, in their report dated December 20, 2024. Based on the report of the other auditors, the summarized comparative information presented herein as of and for the year ended June 30, 2024, is consistent, in all material respects, with the audited financial statements from which it has been derived.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)  
June 30, 2025**

This section of the Monterey Peninsula Water Management District's (the District) annual comprehensive financial report presents a discussion and analysis of the District's performance during the fiscal year ended June 30, 2025. Please read it in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages i – vi of this report and the District's financial statements, which follow this section.

The District was created by the California Legislature in 1977 and ratified by local voters in 1978. The District has four primary responsibilities. The first is to augment and manage the development of potable water supplies and the delivery of this water to users in the Monterey Peninsula area. The second is to promote water conservation. The third is to promote water reuse and reclamation of stormwater and wastewater. The fourth is to protect the environmental quality of the Monterey Peninsula area's water resources, including the protection of instream fish and wildlife resources.

The District is also a participant in the Carmel Area Wastewater District/Pebble Beach Community Services District Reclamation Project (the Project), which is a cooperative effort that also involves the Carmel Area Wastewater District, the Pebble Beach Community Services District, and the Pebble Beach Company. The cooperative effort did not create a new or separate legal entity. Therefore, the Project is included as a Proprietary (Enterprise) Fund of the District, the issuer of the Certificates of Participation, which financed the project.

## **FINANCIAL HIGHLIGHTS**

- The assets and deferred outflows of resources of the governmental activities of the District exceeded its liabilities and deferred inflows of resources at the close of the year ending June 30, 2025 by \$36.50 million (net position). Of this amount, \$19.19 million is classified as investment in capital assets; while the remaining \$17.31 million is unrestricted.
- The assets and deferred outflows of resources of the business-type activities of the District exceeded its liabilities and deferred inflows of resources at the close of the year ending June 30, 2025 by \$38.16 million (net position). Of this amount, \$34.62 million is classified as investment in capital assets; while the remaining \$3.54 million is unrestricted.
- The District's total net position decreased by 630 thousand, with governmental activities net position decreasing by approximately \$412 thousand for the year ended June 30, 2025. The decreases in net position for governmental activities can mostly be attributed to the recession of the Water Supply Charge (WSC) revenue and the booking of related expenses for WSC collections from the prior fiscal year. Depreciation expense for the year was \$695 thousand.
- The District's total business-type activities net position decreased by approximately \$218 thousand for the year ended June 30, 2025. Revenues were lower than expenses for the current year due to a decrease in revenues from fixed cost charges. Amortization expense for the year were \$1.80 million.
- Capital outlay and capitalized project expenditures of \$813 thousand for governmental activities consisted mostly of funds expended for Aquifer Storage & Recovery (ASR) equipment, operating/office equipment, reclamation storage facilities improvements, and the purchase of Pure Water Monterey reserve water.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This financial report consists of four parts: management's discussion and analysis (this section), the basic financial statements, the notes to the basic financial statements, and required supplementary information. The financial statements provide both long-term and short-term information about the District's financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by required supplementary information that further explains and supports the information in the financial statements.

The District's financial statements are prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, and depreciation of assets is recognized in the Statement of Activities. All assets and liabilities associated with the operation of the District are included in the Statement of Net Position.

**Government-Wide Financial Statements** – The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The Statement of Net Position combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations.

The *Statement of Activities* presents information showing how the District's net position changed during the most recent fiscal year (FY). All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements include all the governmental activities of the District. The governmental activities of the District include conservation, mitigation, and water supply. The business-type activity includes the water reclamation project.

The government-wide financial statements can be found on pages 19 and 20 of this report.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

**Fund Financial Statements** – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The fund financial statements provide detail information about the most significant funds, not the District as a whole. The District, like other special districts, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's funds are segregated into two categories: governmental funds and proprietary funds. Fund financial statements report essentially the same functions as those reported in the government-wide financial statements. However, unlike the government-wide financial statements, fund financial statements focus on *near-term inflows* and *outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year.

**Governmental Funds** – The District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's projects. Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented in the government-wide financial statements. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate the comparison between governmental funds and government-wide statements.

The District maintains three individual governmental funds. Information is presented separately in the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances for the Water Supply Fund, Conservation Fund, and the Mitigation Fund, all of which are considered to be major funds.

**Proprietary Fund** – The District maintains one type of proprietary fund, the enterprise fund. Proprietary funds are reported using the accrual basis of accounting. Enterprise funds are used to report the same functions presented as business-type activity in the government-wide financial statements but provide more detail and additional information. The District uses an enterprise fund to account for the CAWD/PBCSD Reclamation Project.

The fund financial statements can be found on pages 25 through 28 of this report.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 39 through 65 of this report.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

**Other Information** – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension and other postemployment benefits (OPEB) to its employees. This section also includes budgetary comparison schedules, which compare the budgeted amounts for the fiscal year with the activity for the District's major governmental funds – the Water Supply Fund, Conservation Fund, and Mitigation Fund. Required supplementary information can be found on pages 68 to 77 of this report.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net Position**

This Statement of Net Position, the difference between the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, is one way to measure the District's financial health or position. Net position is reported in three categories: Net Investment in capital assets, Restricted, and Unrestricted. Unrestricted net position includes funds available for future operational and capital expenditures.

The following table is the condensed summary of net position as of June 30, 2025 and 2024:

<b>Summary of Net Position</b>						
	<b>Governmental Activities</b>		<b>Business-Type Activities</b>		<b>Total</b>

The District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by approximately \$74.66 million at the end of the current year, which is a decrease of approximately 0.94% since June 30, 2024.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)**

**Net Position (Continued)**

Capital assets decreased by \$619 thousand due to capital additions of \$813 thousand and \$1.07 million in governmental and business-type activities, respectively, offset by depreciation of \$695 thousand in governmental activities and \$1.80 million in amortization of water rights for business-type activities.

The decrease in deferred outflows of resources is due to a change in the deferred pension and OPEB adjustments. Liabilities increased due to increases in compensated absences and settlement liability related to WSC reimbursement.

The following table is the condensed summary of changes in net position for the years ended June 30, 2025 and 2024:

Net Position - Beginning of Year, as restated	<u>36,910,303</u>	<u>29,621,758</u>	<u>38,376,981</u>	<u>38,765,469</u>	<u>75,287,284</u>	<u>68,387,227</u>
<b>NET POSITION - END OF YEAR</b>	<u>\$ 36,497,838</u>	<u>\$ 36,981,683</u>	<u>\$ 38,159,330</u>	<u>\$ 38,376,981</u>	<u>\$ 74,657,168</u>	<u>\$ 75,358,664</u>

Governmental activities decreased the District's net position by approximately \$412 thousand (1.1% of modified beginning net position). Key elements resulting in the net increase are as follows:

- Recission of \$3.35 million in Water Supply Charge (WSC) revenue, discontinued in FY2024-25 following the California Sixth District Court of Appeals court ruling to sunset charges and booking of a settlement expense for the same amount to refund WSC collections from FY2023-24.
- Increase in personnel costs for salaries and benefits by 702 thousand following labor negotiations and cost-of-living increases.
- Timing differences in reimbursable grant revenues for project expenditures, which led to \$2.48 million in unavailable revenue during the fiscal year.
- Additional litigation expenses of \$545 thousand towards settlement expenses of various legal cases related to the WSC settlement.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)**

**Net Position (Continued)**

Business-type activities, related to the CAWD/PBCSD Reclamation Project (the Project), decreased the net position by approximately \$218 thousand, mostly due to higher operating costs. Key elements resulting in the net decrease are as follows:

- Total Water Sales revenue increased 16.2% over the prior year in water sales, with a corresponding 2.8% under the budget.
- Total amount of water sold was 8.4% less than in fiscal year 2023-24. Last year, total water sales included 882-acre feet (AF) of reclaimed water. That figure contrasts with 956 AF of reclaimed water for the current year.
- Net non-operating expenses decreased 49.1% over the prior year due to the near doubling of investment earnings.
- Total plant operating expenses increased 12.9% over the prior year and 11.3% less than budget as follows:
  - Plant labor was 16.7% higher than prior year and 18.1% greater than the budget. The Lab supervisor's position was open for five months during recruitment, resulting in a 12.5% decrease from prior year's salaries. The Lab technician position, in contrast, was 40.7% higher than the prior year and 54.3% over budget. The lab staffing was affected by losing accreditation and efforts to bring it back online. Plant operators were 16.0% over the prior year and 10.4% over budget. Maintenance supervisor maintenance costs were up 43.5% over 2024 and 44.3% over budget.
  - Electricity costs increased by 24.8% compared to 2024 (5% over budget).
  - Chemical costs increased 11.3% over the prior year, with Clean-in-place chemicals increasing 243.2% (67.6% over budget), Ammonium hydroxide increasing 41.7% (74.3% over budget), Brennfloc RE 5000 increasing by 22.3% (30.5% over budget) over the prior year, offset by decreases in Sodium hypochlorite by 22.3% over the prior year.
  - Operating supplies tracked closely to the prior year, being 1.9% lower and 6.6% under budget.
  - Contractual Services were 107.8% over prior year and 57.6% over budget. The most significant variance was Contract lab analysis, which was 250.3% higher than prior year.
  - Distribution management labor costs were 2.9% over prior year and 9.1% under budget. Distribution field labor costs were 9.2% over prior year and 4.4% under budget.
  - Distribution utilities were 3.3% over prior year and 14.8% over budget.
  - Distribution other costs were 72.6% higher than prior year but 18% under budget.
  - Total Source Water/Dry Weather diversion costs were 9.4% less than prior year and 16.1% under budget.
  - Pebble Beach Company and Independent Golf Club Users liaison expenses were 0.7% under budget and 3.5% higher than prior year.
  - Carmel Area Wastewater District (CAWD) administrative salaries and other expenses were 8.5% under budget and 7.5% greater than prior year.
- Potable water was 48.2% higher than the prior year and 22.4% less than budget.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements.

The Water Supply Fund is the chief operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. This fund accounts for financial resources to be used for the acquisition of or construction of major capital facilities (other than those financed by Proprietary Funds and Special Assessments).

The Special Revenue Funds are used to account for specific revenue sources for which expenditures are restricted by law or regulation to finance particular activities of the District. The Conservation Fund accounts for financial resources used to fund water conservation activities mandated by District legislation, including permit issuance and enforcement, jurisdictional water allocations, and public water conservation education. This includes the Toilet Replacement Refund Program and other rebates for high-efficiency fixtures, which decrease water demand on the Carmel River. The Mitigation Fund accounts for financial resources used to finance work along the Carmel River carried out pursuant to the Mitigation Program designed to ameliorate impacts identified in the District's Allocation Program Environmental Impact Report.

At the end of the current fiscal year, the District's governmental funds reported a total fund balance of \$29 million. The Water Supply Fund has a fund balance of \$9.42 million, the Conservation Fund has a fund balance of \$8.51 million, and the Mitigation Fund has a fund balance of \$11.07 million.

During the current fiscal year, the fund balance of the District's Water Supply Fund increased by \$1.76 million, the Conservation Fund increased by \$706 thousand, and the Mitigation Fund increased by \$430 thousand. The increase in the Water Supply Fund is due to an increase in user fees and increased allocation of property taxes. The increase in the Conservation and Mitigation Funds is due to the higher permit fees, combined with an increase in user fees and investment income.

The District's uses an enterprise fund to account for the CAWD/PBCSD Wastewater Reclamation Project. At the end of the current fiscal year, the District's enterprise fund reported a net position of \$38.16 million.

During the current fiscal year, the net position of the District's enterprise fund decreased by \$218 thousand.

**BUDGET HIGHLIGHTS/VARIANCES**

This section provides information on budgetary adjustments and results for the District's main operating fund – the water supply fund.

**MONTEREY PENINSULA WATER**  
**MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)**  
**June 30, 2025**

**Original Budget Compared to Final Budget** – During the year, the District made modifications to its original budget for the water supply, conservation, and mitigation fund, leading to a final budget of \$44.81 million, an increase of \$1.95 million compared to the original budget. After a review of six months of revenues and appropriations, modifications were made to the revenue line items based on more realistic projections for the remainder of the year. These included increases to estimated revenues for user fees, property tax, and investment income, and a reduction in water supply charge revenues. Reimbursable project expenditures for the Pure Water Monterey Project were increased, whereas those for the Integrated Resource Water Management (IRWM) grants were lowered. Final budgeted expenditures for the Water Supply Fund were increased by \$3.4 million as a result of WSC charges and for anticipated increases to project expenditures for the PWM Expansion.

**Final Budget Compared to Actual Results** – Actual revenues for the Water Supply Fund were \$31.77 million and final expenditures were \$30.01 million, approximately \$1.47 million and \$6.61 million lower than the final budget respectively. The difference in budgeted expenditures was mostly attributable to reduced reimbursable project expenditures related to delays in the construction of the PWM Expansion project, and lower than budgeted spending for ASR operations, Measure J-related expenditures for the acquisition of the water system, and purchases of PWM water for the operating reserve. Additional information is available in the Required Supplementary Information of this report.

For the District's enterprise fund, an annual budget is adopted by the Reclamation Management Committee (RMC) for management purposes. Budget information is reported to the RMC and adjustments to the budget may only be made by resolution of the committee.

## **CAPITAL ASSETS AND DEBT ADMINISTRATION**

### **Capital Assets**

The District's capital assets, net of accumulated depreciation/amortization, at June 30, 2025 totaled \$53.80 million. This amount represents a net decrease, including additions and disposals, net of depreciation/amortization, of approximately \$619 thousand or 1.1% from June 30, 2024.

Significant capital asset events during the fiscal year included the following:

• Pure Water Monterey water reserve	\$ 684,026
• Transformer at Harris Court	\$ 58,500
• Aquifer Storage & Recovery (ASR) Turbidity Meter	\$ 57,749
• Pipeline Cathodic Protection (Project)	\$ 231,146
• Wastewater Treatment Plant (WWTP) Phase II Design (Project)	\$ 217,604
• Sand Filter Rehab (Project)	\$ 156,086
• Microfiltration/Reverse Osmosis (MF/RO) PLC ControlNet to Ethernet (Project)	\$ 129,320
• Hard Iron N Impeller MF Feed Pump (Project)	\$ 46,912

**Debt Administration**

The District does not currently carry debt from external entities, but reports liabilities for compensated absences, other postemployment benefits, and pension expenses.

Additional information on the District's long-term liabilities is provided in Note 7 on page 55 of this report.

**MONTEREY PENINSULA WATER  
MANAGEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) (Continued)  
June 30, 2025**

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

In developing the fiscal year 2025–2026 budget, the staff and management considered several factors that would impact the District's finances, including expected increases in fees and tax revenues, which could be offset by the reduction in WSC revenues. FY 2025-26 budget includes increases in reimbursable revenue for purchases of additional water from the Pure Water Monterey Expansion Project. The original budget was developed and balanced using expected revenue to cover continuing operating expenditure levels, using fees and reimbursements to fully recover service costs. The original budget assumes continued user fees collected from Cal-Am ratepayers and property tax revenue derived from individual property owners. The budget includes a full year of PWM water sales (3,500 acre-feet) and assumes that the PWM Expansion will begin operations in November 2025, which will supply an additional 2,250 acre-feet of recycled water annually.

On November 6, 2018, the public voted on Measure J to instruct the District to undertake a feasibility study on the public takeover of California American Water's Monterey Water System. The measure passed with the electorate voting 55.81% to 44.19% in favor of the measure. The District has spent about \$3.49 million for the first three phases of acquisition, which included the feasibility study, the Local Agency Formation Commission office's approval, and appraisal through resolution of necessity. The District has budgeted an additional \$600 thousand for phase four of the eminent domain proceedings through bench trial. Additional budget may be approved for utilities and other consultants related to the acquisition of the Monterey Water System.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of the District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be directed to the Chief Financial Officer, Monterey Peninsula Water Management District, 5 Harris Ct., Bldg G, Monterey, California 93940.

**Monterey Peninsula Water Management District**  
**Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes**  
**in Fund Balances to the Government-Wide Statement of Activities**  
**For the Year Ended June 30, 2025**  
**(With Comparative Totals for June 30, 2024)**

	<u>2025</u>	<u>2024</u>
<b>Net change in fund balances</b>	\$ 2,895,743	4,416,623
Amounts reported in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period these amounts are:		
Capitalized project expenditures	(10,108)	93,551
Capital outlay	822,901	1,296,604
Depreciation expense	(694,980)	(700,067)
	<u>117,813</u>	<u>690,088</u>
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	(2,715,031)	2,619,766
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:		
Compensated absences	(210,645)	153,123
OPEB costs	(74,928)	(176,037)
Current year pension cost difference	(425,417)	(343,638)
	<u>(710,990)</u>	<u>(366,552)</u>
<b>Change in net position</b>	<u>\$ (412,465)</u>	<u>\$ 7,359,925</u>

**Note 1 – Summary of Significant Accounting Policies**

**A. Abbreviations Used**

ASR	Aquifer Storage & Recovery
CAW	California–American Water Company
CAWD	Carmel Area Wastewater District
COP	Certificates of participation
O&M	Operations and maintenance
PBCo.	Pebble Beach Company
PBCSD	Pebble Beach Community Services District
Project	CAWD/PBCSD Reclamation Project
PWM	Pure Water Monterey

**B. Description of the Reporting Entity**

The Monterey Peninsula Water Management District (the “District”) was created by Chapter 527, Statutes of 1977 (Assembly Bill No. 1329) of the California Legislature, on September 2, 1977. The District was created to provide integrated management of ground and surface water supplies, and to exercise regulatory control over the collection, storage, distribution, and delivery of water and wastewater within its jurisdiction including, but not limited to, such functions as management and regulation of the use, reuse, reclamation and conservation of water, and bond financing of public works projects. Water service is principally supplied by other entities, but the District has the power to acquire public or private water systems. The District also has the power to levy and collect real estate taxes. Operations were commenced during the fiscal year beginning July 1, 1978.

The District has a seven-member board of directors. Five directors are elected every four years on a staggered basis. Of the other two directors, one must be a member of the Monterey County Board of Supervisors and the other must be a chief executive officer, mayor, or member of the governing body of a city member unit. The Board of Directors has continuing oversight responsibility for the District.

The geographic jurisdiction of the District approximates the Monterey Peninsula and the Carmel River watershed including all of the cities (except Marina) and the unincorporated communities therein.

The accompanying financial statements conform to accounting principles generally accepted in the United States of America (“U.S. GAAP”) as applicable to governments. The following is a summary of the more significant accounting policies used by the District:

**C. Government-Wide and Fund Financial Statements**

The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (Conservation, Mitigation or Water Supply) or identifiable activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity. The District allocates indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity; 2) grants and contributions that are restricted to meeting the operational requirements of a particular function or identifiable activity; and 3) grants and contributions that are restricted to meeting the capital requirements of a particular function or identifiable activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***C. Government-Wide and Fund Financial Statements (Continued)***

The net cost (by function) is normally covered by general revenue (property taxes, intergovernmental revenues, interest income, etc.).

Separate fund based financial statements are provided for governmental funds. The District has one proprietary fund. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide focus is more on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

***D. Measurement Focus and Basis of Accounting***

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenue to be available if they are collected within ninety days of the end of the current fiscal year.

Property taxes that have been levied and are due on or before year-end are recognized as revenue if they have been collected within ninety days after year-end. Water supply charges, connection charges and permit fees are considered to be measurable when they have been collected and are recognized as revenue at that time. Investment earnings are recorded as earned since they are measurable and available.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences, and claims and judgments are recognized only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

Proprietary fund level financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from producing and delivering reclaimed water. Operating expenses include the cost of sales, general and administrative expenses, and amortization of capital assets and water resale rights. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Operating revenue comes from sales of reclaimed water. Other revenue comes primarily from the subsidy by PBCo. and from sales of water entitlements.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***D. Measurement Focus and Basis of Accounting (Continued)***

The following major funds are used by the District:

Governmental Funds

The following is a description of the Governmental Funds of the District:

**Water Supply Fund** – accounts for financial resources used to fund for acquisition or construction of major capital facilities (other than those financed by Proprietary Funds, and Special Assessments), support for staff relative to water supply, and other water supply related activities. The Water Supply Fund operates as the District's General Fund.

**Conservation Fund** – accounts for financial resources used to fund water conservation activities mandated by District legislation. The Water Demand Division provides information and programs to achieve efficient water use and maximize available supplies. This is achieved through community education and outreach, development of incentives and training programs, and by implementing and enforcing permitting and conservation regulations, thereby reducing the community's need for potable water.

**Mitigation Fund** – accounts for financial resources used to finance work along the Carmel River carried out pursuant to the Mitigation Program designed to ameliorate impacts identified in the District's Allocation Program Environmental Impact Report.

The District has no non-major funds.

Proprietary Fund

The following is a description of the Proprietary Fund of the District:

**Enterprise Fund** – accounts for the activity of the CAWD/PBCSD Reclamation Project.

***E. Basis of Presentation and Accounting***

**1. Cash Equivalents**

The District considers all highly liquid assets which have an original term of less than ninety days to maturity when purchased as cash equivalents.

**2. Pooled Cash**

Cash accounts including those for (Reclamation) which essentially operate as demand deposit accounts are maintained by the District and Monterey County Treasurer's Office. Available cash balances are controlled and invested in pooled investment funds in order to provide safety, liquidity, and high investment returns for all funds. Interest earnings from these funds are generally credited to the District's account on a quarterly basis.

The District and Monterey County Treasurer's Investment policy is in compliance with Section 53635 of the Government Code of the State of California which permits investments in certain securities and participation in certain investment trading techniques or strategies.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**3. Investments**

Resolution 83-17 adopted September 12, 1983, authorized investment of the District's monies with the State Treasurer for deposit in the Local Agency Investment Fund (LAIF). Money in the fund is invested by the State Treasurer to realize the maximum return consistent with prudent treasury management. All earnings of the fund, less a reimbursement of management costs incurred not to exceed one quarter of one percent of earnings, are distributed to the contributing agencies in their relative shares each quarter. The balances of funds in LAIF are stated at fair value.

The types of investments the District may purchase are not limited by legal or contractual provisions, but the Board has established policies on investments and consistent with State guidelines.

The Project does not have a specific investment policy but generally follows the guidelines of the County of Monterey's Investment Policy. All funds invested are managed to meet the guidelines stated in both California Code Section 53600, et. seq. and the County's investment policy.

**4. Receivables and Deferred Inflows of Resources**

Receivables are amounts due representing revenues earned or accrued in the current period. Receivables which have not been remitted within ninety days subsequent to year end are offset by deferred inflows of resources, and accordingly have not been recorded as revenue in the governmental fund. When the revenue becomes available, the revenue is recognized in the governmental fund. Deferred inflows are detailed on the balance sheet.

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. The allowance is based on an assessment of the current status of individual accounts. At June 30, 2025, no allowance for doubtful accounts is provided because management believes all receivables are collectible.

**5. Prepaid Items**

Prepaid items are capitalized and amortized ratably over the period of benefit.

**6. Capital Assets**

Property, facilities, and equipment purchased or acquired is carried at historical cost or estimated historical cost. Contributed capital assets are recorded at acquisition value at the time received. Capital assets are defined by the District as assets with an estimated useful life in excess of one year and an initial, individual cost of more than \$5,000 for equipment, land, facilities, and improvements.

Property, facilities, and equipment of the District is depreciated using the straight-line method over the following estimated useful lives:

Equipment	3 to 20 Years
Building and improvements	5 to 39 Years
Monitoring stations	5 to 10 Years
ASR facilities	30 to 40 Years
Fish rearing facility	5 to 40 Years
Leasehold improvements	10 to 40 Years

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**7. Water Reserves**

The water reserves account has two sub-accounts: the operating reserve and the drought reserve. The District allocates all excess water into either the operating reserve or the drought reserve as it shall determine in its sole discretion. The District owns any water in the reserve account, until such time as operating reserve water or drought reserve water is used to satisfy the water availability guarantee at which point it shall become Company water and be owned by California American Water. The water reserves are capitalized as an intangible asset with an indefinite life and therefore are not subject to amortization.

**8. Water Resale Rights**

Proceeds from the issuance of the Certificates of Participation were used to construct facilities for wastewater reclamation and distribution. The District does not own these facilities, but instead owns the rights to the reclaimed water for resale. The Project capitalizes the costs incurred in order to obtain these water rights in accordance with generally accepted accounting principles for intangible assets. As a result, capital outlays have been capitalized into this account. These rights are presented net of accumulated amortization.

**9. Amortization**

The water resale rights are amortized using the straight-line method over the expected useful life of the reclamation plant, which is forty years, in accordance with GASB Statement No. 51, *Accounting and Reporting for Intangible Assets*, which specifies that an intangible asset shall be amortized over its useful life, unless that life is determined to be indefinite.

**10. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

**11. Compensated Absences**

The District accounts for compensated absences in accordance with GASB Statement No. 101, *Compensated Absences*. Under this standard, a liability is recognized for leave benefits (such as vacation and sick leave) when the benefits are attributable to services already rendered, accumulate for use in future periods, and are more likely than not to be used or paid. The liability is measured using the employee's pay rate in effect at the financial statement date and includes salary-related payments.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**12. Interfund Activity**

During the course of operations, transactions occur between individual funds that result in amounts owed between funds, which are classified as “due to/from other funds.” Eliminations have been made on the government-wide statements for amounts due to/from within the governmental funds. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges for services to business-type activities of the District. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**13. Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Debt premiums and discounts are deferred and amortized over the life of the debt using the straight-line method. Debt payables are reported net of the applicable debt premium or discount. Debt issuance costs are recognized in the current period.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financial sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Long-term liabilities of all Proprietary Funds, including any general obligation bonds to be repaid by those funds, are accounted for in the respective funds.

As June 30, 2025, the District does not have any long-term debt obligations.

**14. Leases**

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of the lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

At June 30, 2025, the District does not have any lease agreements within the scope of GASB Statement 87.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**15. Subscription-Based Information Technology Arrangements (SBITA)**

At the commencement of the subscription term, the District recognized a subscription liability and an intangible right-to-use assets.

The District initially measures the subscription-based IT liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription-based IT liability is reduced by the principal portion of subscription payments made. The subscription-based IT asset is initially measured as the initial amount of the subscription-based IT liability, less subscription payments made at or before the subscription commencement date, less any vendor incentives received at or before the subscription commencement date, plus the capitalizable implementation costs. The subscription-based IT arrangement asset is amortized on a straight-line basis over the shorter of the subscription term or the useful life of the underlying hardware or software.

At June 30, 2025, the District does not have any Subscription-Based Information Technology Arrangements within the scope of GASB Statement 96.

**16. Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For this report, the following timeframes are used:

Valuation Date	June 30, 2023
Measurement Date	June 30, 2024
Measurement Period	July 1, 2023 to June 30, 2024

**17. Other Postemployment Benefits (OPEB)**

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, the OPEB Plan recognizes benefit payments when currently due and payable in accordance with the benefit terms.

U.S. GAAP require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2024
Measurement Date	June 30, 2025
Measurement Period	July 1, 2024 to June 30, 2025

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**18. Net Position**

The statement of net position presents the Districts assets and deferred outflows of resources and liabilities and deferred inflows of resources with the difference reported as net position. Net position is reported in three categories.

- *Net Investment in capital assets* consists of capital assets, net of accumulated depreciation and amortization and reduced by outstanding balances of any related debt obligations attributable to the acquisition, construction, or improvement of those assets.
- *Restricted* results when constraints placed on net positions use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.
- *Unrestricted* consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources, as they are needed.

**19. Fund Balances**

Fund balance classifications are based primarily on the extent to which the District is bound to honor constraints on the use of resources reported in each governmental fund.

The District reports the following classifications:

- *Nonspendable* – Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form, such as prepaid expenses and long-term receivables or (b) legally or contractually required to be maintained intact, such as a trust that must be retained in perpetuity.
- *Restricted* – Restricted fund balances are restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.
- *Committed* – Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by the Board. Committed amounts cannot be used for any other purpose unless the Board removes those constraints by taking some type of action (passage of a resolution). Amounts in the committed fund balance classification may be used for other purposes with appropriate due process by the Board. Committed fund balances differ from restricted balances because the constraints on their use do not come from outside parties, constitutional provisions or enabling legislation.
- *Assigned* – Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purpose but are neither restricted nor committed. Intent is expressed by (a) the General Manager or (b) the Board. The Board has the authority to remove or change the assignment of the funds with a simple majority vote.
- *Unassigned* – This fund balance is the residual classification. It is also used to report negative fund balances in other governmental funds.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**19. Fund Balances (Continued)**

When restricted and other fund balance resources are available for use, it is the District's policy to use restricted resources first, followed by committed, assigned and unassigned amounts, respectively.

**20. Property Taxes**

The County of Monterey is responsible for the assessment, collection, and apportionment of property taxes for all taxing jurisdictions, including the District. Secured property taxes for each year ended June 30 are payable in equal installments, November 1, and February 1, and become delinquent on December 10 and April 10, respectively. The lien date is January 1 of each year. Property taxes are accounted for as collected and remitted by the County in the governmental funds. Property taxes on the unsecured roll are due on the January 1 lien date and become delinquent if unpaid on August 31.

The term "Unsecured" refers to taxes on personal property other than land and buildings. These taxes are secured by liens on the property being taxed.

Property tax revenues are recorded in governmental funds as receivables and deferred revenues at the time the tax levy is billed. Current year revenues are those collected within the current period or soon enough thereafter to pay current liabilities, generally within ninety days of year-end. No allowance is provided for delinquent taxes as the lien is considered an enforceable legal obligation.

**21. Permit Fees**

Permit fee revenue is recorded as permits are issued. The District is required to refund permit fees if the permit is not used or to grant an extension of time upon a reasonable request. If a refund is issued, the refunded party also relinquishes any water rights associated with the permit. It is the District's policy to record such refunds as they become payable.

**22. Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**23. Implementation of New GASB Pronouncements for the Year Ended June 30, 2025**

**GASB Statement No. 101**

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Implementation of this Statement results in a restatement of the beginning net position as of July 1, 2024, as presented in Note 14.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 1 – Summary of Significant Accounting Policies (Continued)**

***E. Basis of Presentation and Accounting (Continued)***

**23. Implementation of New GASB Pronouncements for the Year Ended June 30, 2025 (Continued)**

GASB Statement No. 102

In December 2023, GASB issued Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints which may limit a government's ability to acquire resources or control spending. Application of this statement did not have a significant effect on the District's financial reporting for the fiscal year ended June 30, 2025.

**24. Upcoming Government Accounting Standards Implementations**

The District is currently analyzing its accounting practices to determine the potential impact on the financial statements for the following GASB statements:

GASB Statement No. 103

In April 2024, GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. Application of this statement is effective for the District's fiscal year ending June 30, 2026.

GASB Statement No. 104

In September 2024, GASB issued Statement No. 104, *Disclosure of Certain Capital Assets*. This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement 34. Lease assets recognized in accordance with Statement No. 87, *Leases*, and intangible right-to-use assets recognized in accordance with Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, should be disclosed separately by major class of underlying asset in the capital assets note disclosures. Subscription assets recognized in accordance with Statement 96, *Subscription-Based Information Technology Arrangements*, also should be separately disclosed. In addition, this Statement required intangible assets other than those three types to be disclosed separately by major class. Application of this statement is effective for the District's fiscal year ending June 30, 2026.

**25. Reclassification**

For the year ended June 30, 2025, certain classifications may have been changed to improve financial statement presentation. For comparative purposes, prior year balances may have been reclassified to conform with the current fiscal year 2025 presentation.

**26. Summarized Financial Information**

The basic financial statements include certain prior year summarized comparative information in total but not by activities or fund. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2024, from which the summarized information was derived.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 2 – The CAWD/PBCSD Reclamation Project**

The CAWD/PBCSD Reclamation Project (the Project) is a cooperative effort involving the District, the Carmel Area Wastewater District (CAWD), the Pebble Beach Community Services District (PBCSD), and the Pebble Beach Company (PBCo.). This cooperative effort did not create a new or separate legal entity. Therefore, the Project is a proprietary (enterprise) fund of the District, the issuer of the Certificates of Participation which financed the Project's first construction project.

The Project provides treated wastewater to irrigate golf courses and open space areas in the Pebble Beach community, which freed up potable water previously used for irrigation. The original Project involved the construction of a new tertiary treatment plant and laboratory facilities located on the site of the existing CAWD secondary wastewater treatment plant, the construction of a new reclaimed distribution system, including a 2.5 million gallon storage tank and irrigation system improvements. Construction of the original Project began in January 1993 and was completed in October 1994. The tertiary treatment plant produces water which meets Title 22 standards specified by the California Department of Health Services, which is a quality acceptable for human contact.

The Project's assets are owned principally by CAWD and PBCSD, and consist primarily of the following:

- Assets owned by CAWD: (1) a tertiary treatment plant, (2) secondary process improvements, (3) laboratory facilities, (4) a reclaimed water pump station, (5) related computer equipment and, (6) a small portion of the reclaimed water pipeline.
- Assets owned by PBCSD: (1) approximately seven miles of reclaimed water distribution system pipeline, (2) the Forest Lake Reservoir, (3) a 2.5 million gallon storage tank, and (4) a potable water pump station.

The original Project was financed by Certificates of Participation (COP) which were executed and delivered at the direction of the District in December 1992 in the amount of \$33,900,000. The District provided the funds necessary to construct and operate the Project and then obtained ownership of the reclaimed water for the purpose of resale. PBCo. guaranteed payment of construction costs of the Project as well as any operating deficiencies.

The activities of the Project are overseen by a six-member management committee containing two representatives from the CAWD board, two from the PBCSD board, one from the PBCo. and one from the Independent Reclaimed Water Users Group (IRWUG). Since the Project does not own the wastewater reclamation capital assets, the value earned for the capital expenditures incurred is reflected on the books of the Project as water resale rights, an intangible amortizable capital asset.

Subsequent to the completion of the original facilities, the Project has been expanded to increase the quantity and quality of reclaimed water. The expanded project utilizes the Forest Lake Reservoir located in Pebble Beach which provides up to 115 million gallons of storage capacity. The Reservoir is filled with reclaimed water during winter months when there is excess production at the treatment plant. The stored water is used during summer months when the daily irrigation demand exceeds treatment plant production capacity. In 1998, PBCSD purchased the Reservoir from California-American Water Company. The rehabilitation and reservoir expansion was completed in 2009 in accordance with State Water Resources Division of Safety of Dams requirements. The construction costs of approximately \$13 million were financed by the sale of Pebble Beach Company water entitlements.

The Microfiltration/Reverse Osmosis (MF/RO) phase of the project (phase II), located at the CAWD treatment plant site, began design in 2006 and construction was completed in 2009. The intent of the MF/RO phase is to reduce the sodium content of the tertiary reclaimed water from 150 mg/l to less than 55 mg/l to reduce the stress on the golf greens and eliminate the need for flushing the courses with potable water. The design capacity for the MF/RO is 1.5 million gallons with an expected blend of 80% RO water and 20% MF water. The cost of the MF/RO construction project was approximately \$21 million were financed through the sale of water entitlements owned by the PBCo. to residential property owners within the Pebble Beach community.

**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 3 – Cash and Investments**

**Cash and Cash Equivalents**

Balances in cash and cash equivalents consist of bank accounts insured by the Federal Depository Insurance Corporation (FDIC) or Securities Investment Protection Corporation (SIPC) or collateralized by the pledging institution under the California Government Code.

**Investments**

The District's investments consist of obligations of the United States government and its agencies and instrumentalities, municipal obligations, corporate obligations, certificates of deposit, money market accounts, and the State Treasurer's Local Agency Investment Fund. All investments are recorded at fair value. The California Government code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The fair value of the pledged securities in the collateral pool must equal 110% of the total amount deposited by public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. The investment of state pooled funds is governed by state law, by policies adopted by the Pooled Money Investment Board (PMIB) and by accepted norms for prudent fiduciary management of investments. PMIB funds may be invested in a wide range of interest-bearing securities, such as Treasury notes, prime commercial paper, certain California municipal and agency obligations, highly rated corporate bonds, obligations of such agencies as FannieMae, and negotiable certificates of deposit. Also allowed are time deposits in California banks, savings and loans, and credit unions that have not less than a "satisfactory" CRA rating. The value of each participating dollar equals the fair value divided by the amortized cost. The District's fair value of the position in the pool is the same as the value of the pool shares.

Investments at June 30, 2025 consisted of the following:

Governmental Activities:	
Local Agency Investment Fund	\$ 16,069,373
Money Market Funds	1,018,946
Certificates of Deposit	8,680,121
U.S. Government Bonds	625,515
Subtotal Governmental Activities	<u>26,393,955</u>
Business-Type Activities:	
Monterey County Investment Pool	1,464

Certificates of Deposit	1,269,663
Mutual Funds	426,000
Subtotal Business-Type Activities	<u>1,938,650</u>
Total Investments	<u>\$ 28,332,605</u>

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 3 – Cash and Investments (Continued)**

**Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair value of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investment by maturity as of June 30, 2025.

Investments Type	Remaining Maturity (in Months)			Total
	12 Months or Less	13 to 24 Months	25 to 60 Months	
Local Agency Investment Fund	\$ 16,069,373	\$ -	\$ -	\$ 16,069,373

Certificates of Deposit (Business-Type Activities)	1,206,121	-	63,542	1,269,663
Monterey County Investment Pool	1,464	-	-	1,464
Mutual Funds	426,000	-	-	426,000
<b>Total investments</b>	<b>\$ 20,586,381</b>	<b>\$ 2,956,602</b>	<b>\$ 4,789,622</b>	<b>\$ 28,332,605</b>

**Credit Risk**

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County Pool does not have a rating provided by a nationally recognized statistical rating organization. The certificates of deposit are not rated.

**Custodial Credit Risk-Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a deposit policy that complies with the California Government Code commencing at Section 53630 (Public Deposits). As of June 30, 2025, \$7,272,357 of the District's bank balances of \$7,772,357 were exposed to custodial credit risk as uninsured but are collateralized by the pledging bank's trust department not in the District's name.

The difference between bank balances and the carrying amounts (book value) represents outstanding checks and deposits in transit.

**Custodial Credit Risk – Investments**

Custodial credit risk is the risk that in the event of the failure of the counterparty (e.g. broker- dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 3 – Cash and Investments (Continued)**

**Concentration of Credit Risk**

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code.

**Fair Value Measurements**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Investments type	Level 1	Level 2	Level 3	Total
Certificates of Deposit (Governmental Activities)	\$ -	\$ 8,680,121	\$ -	\$ 8,680,121

**Note 6 – Transactions with Related Organizations**

Through its participation in the CAWD/PBCSD Reclamation Project, the District is related with the other organizations involved in the Project.

At June 30, 2025, accounts receivable from these organizations were as follows:

Receivable from PBCo. and Affiliated Golf Courses:	
Water sales	\$ 1,016,061
Total	<u>\$ 1,016,061</u>

At June 30, 2025, accounts payable to these organizations were as follows:

Payable to PBCSD for operations and maintenance	\$ 250,022
Payable to CAWD for operations and maintenance	156,783
Total	<u>\$ 406,805</u>

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 7 – Long-Term Liabilities**

Long-term liability activity for the year ended June 30, 2025 is as follows:

Asset Description	Balance 07/01/2024 (as Restated)	Additions	Reductions	Balance 06/30/2025	Due Within One Year	Due in More Than One Year
Governmental Activities:						
Compensated Absences	\$ 783,808	\$ 210,645	\$ -	\$ 994,453	\$ 255,222	\$ 739,231

<b>Total Governmental Activities</b>	<b>\$ 13,597,793</b>	<b>\$ 1,514,601</b>	<b>\$ (1,747,686)</b>	<b>\$ 13,364,708</b>	<b>\$ 485,388</b>	<b>\$ 12,879,320</b>

**Note 8 – Risk Management**

The District is insured against various risks of loss related to torts, thefts of, damage to or destruction of assets; errors and omissions; work-related injuries to employees and natural disasters through participation in a joint venture under a joint powers agreement (JPA) with the Special District Risk Management Authority (SDRMA). The relationship between the District and the JPA is such that the JPA is not a component unit of the District for financial reporting purposes. The insurance carried by the District includes policies for workers' compensation, general liability, errors and omissions, and vehicular liability.

There have not been any significant reductions in insurance coverage as compared to the previous year. Settled claims from these risks have not exceeded commercial coverage in any of the past three years.

SDRMA was formed under a joint-powers agreement pursuant to California Government Code Section 6500 et seq. effective August 1, 1986 to provide general liability, comprehensive/collision liability and property damage, and errors and omissions risk financing for the member districts. SDRMA is administered by a Board of Directors, consisting of one member appointed by the California Special Districts Association and five members elected by the districts participating. The board controls the operations of the JPA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the JPA.

The SDRMA did not have long-term debt outstanding at June 30, 2025, other than claims liabilities and lease obligations. The District's share of year-end assets, liabilities and risk margin has not been calculated by the SDRMA.

**Note 9 – Deferred Compensation Plan**

The District has a deferred compensation plan for its eligible employees wherein amounts earned by the employees are paid at a future date. This plan meets the requirements of Internal Revenue Code Section 457. All full-time, regular employees are permitted to participate in the plan beginning on the day of hire.

The employee may elect to make tax deferred contributions up to the limits established by the Internal Revenue Service for this type of plan. The employee is 100% vested in their contributions from the first date of participation. The plan does not provide for District contributions. The participant has a choice of investment options.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 9 – Deferred Compensation Plan (Continued)**

The plan is administered by ICMA Retirement Corporation (International City Management Association). The assets of the plan are held in trust, with the District serving as trustee. The plan assets held in the ICMA Retirement Trust are held for the exclusive benefit of the plan participants and their beneficiaries. The assets shall not be diverted to any other purpose. The plan does not permit loans.

The District believes, and the auditors concur, that, since it does not provide investment advice or administer the plan, it does not maintain a fiduciary relationship with the plan. Therefore, the District does not report the plan assets in its financial statements.

**Note 10 – Postemployment Benefits other than Pensions (OPEB)**

**Plans Description**

The District administers a single-employer defined-benefit postemployment healthcare plans (the Retiree Health Plans). Dependents are eligible to enroll, and benefits continue to surviving spouses for one year following the member's death. The Retiree Health Plans provide healthcare insurance for eligible retirees and dependents or survivors. Coverage to members of the General Staff Bargaining Unit is provided through the Association of California Water Agencies Health Benefit Authority Anthem Classic Plan, and coverage for the Management Staff Bargaining Unit members and the Confidential Staff Bargaining Unit members are provided through the Laborer's Trust Funds for Northern California Special Plan III. The Plans provide for continuation of medical insurance benefits for certain retirees and their dependents or survivors who meet the eligibility criteria established by the District and/or medical care providers. The Plans can be amended by action of the Board of Directors during negotiation of periodic Memorandums of Understanding with the different bargaining units. The Plans do not issue a stand-alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plans.

**Benefits Provided**

Retirees are eligible for medical benefits if they retire at Age 50+. A retiree who was hired before July 1, 2013 and retires with 15+ years of service is eligible to receive a payment of \$1,455.41 per month for fiscal-year end June 30, 2025. The amount of this payment increases 3% annually. All other retirees are eligible to receive \$540 per month with no service requirements. There are no disability benefits.

**Employees Covered by Benefit Terms**

At June 30, 2024 (the valuation date), the benefit terms covered the following employees:

Active Employees	25
Inactive Employees, Spouses, or Beneficiaries	
Currently Receiving Benefit Payments	18
Inactive Employees Entitled to But Not Yet Receiving Benefit Payments	-
	<u>43</u>

**Contributions**

The contribution requirements of the District are based on a pay-as-you-go basis. For the fiscal year ended June 30, 2025, the District paid \$162,285 and received an implicit subsidy of \$12,576 for total contributions of \$174,861 for retiree health benefits. The District currently contributes enough money to the plans to satisfy current obligations on a pay-as- you-go basis. There are no assets accumulated in a qualifying trust.

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 10 – Postemployment Benefits other than Pensions (OPEB) (Continued)**

**Total OPEB Liability**

The District’s total OPEB liability was measured as of June 30, 2025, and the total OPEB liability used to calculate the total OPEB liability was determined by an actuarial valuation as of June 30, 2024.

**Actuarial Assumptions**

The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.30%
Salary Increases	2.80% The salary increase is used to determine the growth in the aggregate payroll. Individual Salary Increases: 2021 CalPERS Merit Salary Increases.
Healthcare Trend Rate	6.80% in the first year, trending down to 4.04% over 51 years.

*Mortality rates were based on CalPERS tables.*

**Discount Rate**

The discount rate used to measure the total OPEB liability is 4.71%. The District’s OPEB Plan is an unfunded plan, therefore the discount rate was set to the rate of tax-exempt, high-quality 20-year municipal bonds, as of the valuation date.

**Changes in the Total OPEB Liability**

The changes in the total OPEB liability for the OPEB Plan are as follows:

	Total OPEB Liability
<b>Balance at June 30, 2024</b>	<b>\$ 5,222,313</b>
<b>Changes Recognized for Measurement Period:</b>	
Service Cost	87,211
Interest Cost	207,317
Changes of Benefit Terms	-
Difference Between Expected and Actual Experience	(45,911)
Changes of Assumptions	(462,497)
Contributions - Employer	-
Net Investment Income	-
Benefit Payment	(162,285)
Implicit Subsidy Credit	(12,576)
Administrative Expense	-
<b>Net changes</b>	<b>(388,741)</b>
<b>Balance at June 30, 2025</b>	<b>\$ 4,833,572</b>

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 10 – Postemployment Benefits other than Pensions (OPEB) (Continued)**

**Sensitivity of the Total OPEB Liability to Changes in the Discount Rate**

The following presents the total OPEB liability of the District if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate, for measurement period ended June 30, 2025:

	1% Decrease (3.71%)	Current Discount Rate (4.71%)	1% Increase (5.71%)
Total OPEB Liability	\$ 5,474,563	\$ 4,833,572	\$ 4,300,758

**Sensitivity of the Total OPEB Liability to Changes in the Health Care Cost Trend Rates**

The following presents the total OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2025:

	1% Decrease (5.50%)	Current Healthcare Cost Trend Rate (6.50%)	1% Increase (7.50%)
Total OPEB Liability	\$ 4,400,920	\$ 4,833,572	\$ 5,176,304

**OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB**

For the fiscal year ended June 30, 2025, the District recognized OPEB expense of \$249,789. As of fiscal year ended June 30, 2025, the District reported deferred outflows/inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 148,320	\$ (169,422)
Changes of assumptions	258,357	(538,489)
Total	<u>\$ 406,677</u>	<u>\$ (707,911)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

For the Year Ending June 30,	Deferred Outflows/Inflows of Resources
2026	\$ 10,240
2027	1,984
2028	(88,058)
2029	(88,058)
2030	(55,614)
Thereafter	(81,728)
Total	<u>\$ (301,234)</u>

**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 10 – Postemployment Benefits other than Pensions (OPEB) (Continued)**

**Change of Assumptions**

The discount rate was changed from 3.97%.to 4.71%.

**Note 11 – Pension Plan**

**General Information about the Pension Plan**

**Plan Description**

All qualified permanent and probationary employees are eligible to participate in the District’s Miscellaneous Employee Pension Plan, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees’ Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website at [www.calpers.ca.gov](http://www.calpers.ca.gov).

**Benefits Provided**

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full- time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employees’ Retirement Law.

The Plans’ provisions and benefits in effect at the measurement date, June 30, 2024, are summarized as follows:

Hire Date	Miscellaneous	
	Prior to January 1, 2013	Current Year On or After January 1, 2013
Benefit formula	2% @ 55	2% @ 62
Benefit vesting schedule	5 Years Service	5 Years Service
Benefit payments	Monthly for Life	Monthly for Life
Retirement age	50 – 63	52-67
Monthly benefits, as a % of eligible compensation	1.4% to 2.4%	1.0% to 2.5%
Required employee contribution rates	7.00%	7.75%
Required employer contribution rates	12.52%	7.87%
Payment of unfunded liability	\$599,244	\$0

**Note 11 – Pension Plan (Continued)**

**General Information about the Pension Plan (Continued)**

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2025, the contributions recognized as part of pension expense for the Plan were as follows:

	Miscellaneous
Contributions	\$ 893,900

**Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions**

As of June 30, 2025, the District reported net pension liabilities for its proportionate share of the net pension liability of the Miscellaneous Plan as \$7,536,386.

The District's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2024, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2023 rolled forward to June 30, 2024 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The District's proportionate share of the net pension liability for the Plan as of June 30, 2024 and 2025 was as follows:

	Miscellaneous
Proportion - June 30, 2024	0.15182%
Proportion - June 30, 2025	0.15583%
Change - increase (decrease)	0.00401%

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

**Note 11 – Pension Plan (Continued)**

**Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)**

For the year ended June 30, 2025, the District recognized pension expense of \$1,319,317. Pension expense is allocated to the functions based on full time equivalents. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between actual and expected experience	\$ 651,616	\$ (25,426)
Changes in assumptions	193,710	-
Difference between projected and actual investment earnings	433,877	-
Differences between employer's contributions and proportionate share of contributions	13,944	(89,957)
Change in employer's proportion	-	(143,604)
Pension contributions made subsequent to measurement date	893,900	-
Total	<u>\$ 2,187,047</u>	<u>\$ (258,987)</u>

Deferred outflows of resources in the amount of \$893,900 were reported related to contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as of June 30 as follows:

Year Ended June 30	Amount
2026	\$ 281,140
2027	915,128
2028	(13,424)
2029	(148,684)
Thereafter	-
Total	<u>\$ 1,034,160</u>

---

**Note 11 – Pension Plan (Continued)**

**Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)**

**Actuarial Assumptions**

The total pension liabilities in the June 30, 2023 actuarial valuations were determined using the following actuarial assumptions:

Valuation date	June 30, 2023
Measurement date	June 30, 2024
Actuarial cost method	Entry-Age Normal Cost Method
Actuarial assumptions:	
Discount rate	6.90%
Inflation	2.30%
Salary increases	Varies by entry age and service
Mortality rate table	Derived using CalPERS' membership data for all funds (1)
Postretirement benefit increase	Contract COLA up to 2.30% Until Purchasing Power Protection Allowance Floor on Purchasing Power applies 2.30% thereafter

(1) The mortality table used was developed based on CalPERS-specific data. The rates incorporate Generational Mortality to capture ongoing mortality improvement using 80% of Scale MP 2020 published by the Society of Actuaries. For more details, please refer to the 2021 experience study report that can be found on the CalPERS website.

All other actuarial assumptions used in the June 30, 2023 valuation were based on the results of an actuarial experience study for the period 2000 to 2019, including updates to salary increase, mortality and retirement rates. The Experience Study can be found on the CalPERS' website under Forms and Publications.

**Discount Rate**

The discount rate used to measure the total pension liability was 6.90 percent for the Plan. The projection of cash flows used to determine the discount rate assumed that the contributions from plan members will be made at the current member contribution rate and that the contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS takes into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employer will make their required contributions on time and as scheduled in all future years. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

**For the Year Ended June 30, 2025**

**Note 11 – Pension Plan (Continued)**

**Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)**

**Discount Rate (Continued)**

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	Assumed Asset Allocation	Real Return (a) (b)
Global equity - cap-weighted	30%	4.54%
Global Equity - non-cap-weighted	12%	3.84%
Private equity	13%	7.28%
Treasury	5%	0.27%
Mortgage-backed securities	5%	0.50%
Investment grade corporates	10%	1.56%
High yield	5%	2.27%
Emerging market debt	5%	2.48%
Private debt	5%	3.57%
Real assets	15%	3.21%
Leverage	-5%	-0.59%
Total	100%	

(a) An expected price inflation of 2.30% used for this period.

(b) Figures are based on the 2021-22 Asset Liability Management Study.

**Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
Net pension liability	\$ 11,385,867	\$ 7,536,683	\$ 4,368,238

**Pension Plan Fiduciary Net Position**

Detailed information about the plan fiduciary net position is available in the separately issued CalPERS financial reports.

**For the Year Ended June 30, 2025**

**Note 12 – Commitments and other Contingencies**

As of June 30, 2025, the District has several ongoing projects with outstanding contracts as follows:

Vendor/Contractor	Project	Original Contract Date	Total Contract Amount	Amount Outstanding at June 30, 2025
Monterey One Water	Urban Community Drought Grant*	05/2023	\$ 11,935,206	\$ 5,233,655
Monterey One Water	State Water Control Board Grant *	06/2023	4,800,000	551,424
City of Sand City	IRWM Round 1 Grant Reimbursement Remainder of Project*	11/2021	1,084,323	1,010,805
City of Monterey	IRWM Round 2 Grant Reimbursement*	05/2023	500,000	442,575
County of Monterey	IRWM Round 2 Grant Reimbursement*	05/2023	898,451	898,451
Montgomery & Associates	Tularcitos ASR Feasibility Study - Amd# 1*	03/2023	119,200	62,826
DUDEK	IRWM IR2 Grant Administration	11/2023	90,510	80,033
DUDEK	Grant services*	12/2020	114,960	45,399
Montgomery & Associates	Groundwater Modeling Montgomery Contract	03/2023	55,000	55,000
Pueblo Water Resources, Inc.	SSAP Water quality Study - Amd #14	11/2006	94,438	47,155
			<u>\$ 19,692,087</u>	<u>\$ 8,427,323</u>

\* The District acts as a pass-through on these projects. The District's outstanding commitment is limited to actual spending.

**Note 13 – Interfund Transactions**

During the year, there was no transfers between governmental funds.

During the year, the Governmental funds charged the Reclamation Project for services provided and user fees. Interfund receivables and payables consist of the following at June 30, 2025:

Receivable Fund	Payable Fund	Amount
Water Supply	Reclamation Project	\$ 59,208
Conservation	Reclamation Project	17,705
Mitigation	Reclamation Project	45,368
Total interfund receivables/payables		<u>\$ 122,281</u>

**Note 14 – Restatement of Beginning Net Position**

The beginning net position was restated due to implementation of GASB 101 *Compensated Absences* as follows:

	Governmental Activities
Net position as previously reported at June 30, 2024	\$ 36,981,683
Compensated Absences	(71,380)
Net position as restated at July 1, 2024	<u>\$ 36,910,303</u>

**Monterey Peninsula Water Management District**  
**Notes to the Basic Financial Statements (Continued)**  
**For the Year Ended June 30, 2025**

---

**Note 15 – Contingent Liabilities**

Due to the various activities of the District involving the Carmel River and actions to acquire the Monterey water system from Cal-Am pursuant to Measure J, several pending and threatened claims against the District are outstanding. No estimate of the amount of any potential liability to the District can reasonably be made at this time.

In prior years, District implemented a Water Supply Charge pursuant to Article XIII D of the California Constitution (Proposition 218) to fund various water supply projects. In 2013, the Monterey Peninsula Taxpayers Association (MPTA) filed legal action challenging the validity of the charge, alleging that its continued collection violated statutory and constitutional requirements.

On December 14, 2023, the California Sixth District Court of Appeal issued a ruling in favor of the MPTA, determining that the Water Supply Charge was no longer valid and directing the District to cease collection and address refund claims. Following the court's decision, the District entered into a settlement agreement with MPTA and affected property owners on March 17, 2025.

Under the terms of the settlement agreement, the District agreed to refund approximately \$3.35 million to property owners who paid the Water Supply Charge during the contested period. The settlement amount includes refunds to property owners, payment of attorneys' fees and costs to MPTA, and administrative costs related to the refund process. Payment of the settlement amount is expected to occur in July 2025.

As of June 30, 2025, the District has recognized a liability in the amount of approximately \$3.35 million related to this settlement. The liability is reported as a current liability on the accompanying financial statements, reflecting the expected timing of payment. The District anticipates that the refund process will be completed in fiscal year 2025-26.

**Note 16 – Settlement Liability**

The District's Water Supply Charge (WSC) was a fee collected on property tax bills to fund water supply projects. It was imposed in 2012 and is no longer being collected. As of June 30, 2025, the District has suspended collection of the WSC following a court ruling that found the charge should have a 'sunset clause' and had to be discontinued. The ruling determined that the WSC fees collected in fiscal year ended June 30, 2024, totaling \$3.35 million, would need to be refunded. The District created a WSC reserve to fund this settlement in fiscal year ended June 30, 2024. Since the amount of the WSC refund was first measurable and known as of June 30, 2025 after the court ruling, the District has booked a settlement expense for the full amount of the refund in its June 30, 2025 financial statements. The WSC refunds are slated to be sent to applicable residents in fiscal year 2026 after a fairness hearing in December 2025. As a result, the District is also presenting the \$3.35 million refund expense as a liability in its financial statements.

**Monterey Peninsula Water Management District**  
**Required Supplementary Information**  
**Notes to the Budgetary Comparison Schedules**  
**For the Year Ended June 30, 2025**

---

**Budget and Budgetary Accounting**

The District adopts an annual legal budget, which covers the Water Supply Fund (which acts as the District's general fund), Conservation Fund, and Mitigation Fund. Operating budgets lapse at fiscal year-end and then are re-budgeted for the coming fiscal year. The budgets are prepared on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

A mid-year budget review is performed, and the budget is amended and adopted by the board of directors. The District must approve additional appropriations or interfund transfers not included in the amended budget resolution.

2023	0.1518%	7,591,672	2,845,112	266.83%	17,692,895,076	77.97%
2024	0.1558%	7,536,683	2,799,531	269.21%	19,241,277,838	79.91%

**Notes to Schedule:**

**Benefit Changes**

For 2016, the figures above do not include any liability impact that may have resulted from plan changes which occurred after the June 30, 2015 valuation date. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

**Changes in Assumptions**

In 2015, amounts reported as changes in assumptions resulted primarily from adjustments to expected retirement ages of general employees.

In 2016, the discount rate was changed from 7.50 percent (net of administrative expense) to 7.65 percent to correct for an adjustment to exclude administrative expense.

In 2017, the discount rate was changed from 7.65 percent to 7.15 percent.

In 2018, demographic assumptions and the inflation rate were changed in accordance with CalPERS Experience Study and review of Actuarial Assumptions December 2017.

In 2022, the discount rate was changed from 7.15 percent to 6.9 percent.

**Monterey Peninsula Water Management District**  
**Required Supplementary Information**  
**Schedules of Contributions - Pension**  
**For the Year Ended June 30, 2025**

Measurement Period	Contractually Required Contributions (Actuarially Determined)	Contributions in Relation to the Actuarially Determined Contributions	Contribution Deficiency (Excess)	Covered Payroll	Contribution as a % of Covered Payroll
2016	\$ 370,709	\$ 370,709	\$ -	\$ 2,419,068	15.32%
2017	361,981	361,981	-	2,407,013	15.04%
2018	386,341	386,341	-	2,531,145	15.26%
2019	458,759	458,759	-	2,735,113	16.77%
2020	516,231	516,231	-	2,625,596	19.66%
2021	583,756	583,756	-	2,586,027	22.57%
2022	656,243	656,243	-	2,707,728	24.24%
2023	738,908	738,908	-	2,845,112	25.97%
2024	750,603	750,603	-	2,888,705	25.98%
2025	893,900	893,900	-	3,668,655	24.37%

The actuarial methods and assumptions used to set the actuarially determined contributions for each fiscal year are as follows:

FYE 2015–2016	June 30, 2013	Funding valuation report
FYE 2016–2017	June 30, 2014	Funding valuation report
FYE 2017–2018	June 30, 2015	Funding valuation report
FYE 2018–2019	June 30, 2016	Funding valuation report
FYE 2019–2020	June 30, 2017	Funding valuation report
FYE 2020–2021	June 30, 2018	Funding valuation report
FYE 2021–2022	June 30, 2019	Funding valuation report
FYE 2022–2023	June 30, 2020	Funding valuation report
FYE 2023–2024	June 30, 2021	Funding valuation report
FYE 2024–2025	June 30, 2022	Funding valuation report

Actuarial Cost Method	Individual entry age normal
Amortization Method/Period	Level percentage of payroll and direct rate smoothing
Asset Valuation Method	Fair value of assets
Inflation	2.30%
Salary Increases	Varies, based on entry age and service
Payroll Growth	2.75%
Investment Rate of Return	6.90%
Retirement Age	The probabilities of retirement are based on results of an actuarial experience study for the period from 2000 to 2019.
Mortality	The probabilities of mortality are based on the 2021 CalPERS Experience Study and Review of Actuarial Assumptions. Mortality rates incorporate full generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the 2021 experience study report from November 2021 that can be found on the CalPERS website.

Notes:

Accounting standards require that net assets be reported in three components in the financial statements: Net investment in capital assets; restricted; and unrestricted. Net assets are considered restricted when 1) externally imposed by creditors (such as debt covenants) , grantors, contributors, or laws or regulations of other governments or 2) imposed by law through constitutional provisions or enabling legislation.

\* Grant revenues in FY 2024-25 were higher than prior fiscal year due to higher reimbursable revenues from the Urban Community Drought (UCD) Grant and the State Water Resources Control Grant for the Pure Water Expansion Project, as well as deferred UCD grant revenues of \$2.8 million from FY 2023-24 to FY 2024-25 that were not received within the revenue recognition period of 60 days in FY 2023-24. The revenue recognition period for FY2024-25 has been increased to 90 days to allow recognition of grant revenues received in the following fiscal year.

\* The service coverage ratio only applies to the Water Supply Fund. The amounts included in the calculation relate only to that fund.

(1) Operating expenses exclude depreciation, interest expense, capital outlay and project expenditures except for ASR operating expenses.

(2) Gross revenues includes operating revenue, other non- operating revenue, and investment earnings.

(3) Operating expenses exclude depreciation and amortization.

(4) Minimum coverage ratio requirement per debt covenants.

(5) Debt service coverage ratio requirement is not applicable to fiscal years ended June 30, 2023 and after as the debt was fully paid off during.

Notes:

1. Secured property is generally the real property, which is defined as land, mineral, timber, and improvements such as buildings, structures, crops, trees and vines. Also included in secured roll are unitary properties, including railroads and utilities, which cross the country and are assessed by the State Board of Equalization.
2. Unsecured property is generally personal property, including machinery, equipment, office tools, supplies, mobile homes, and aircraft.
3. Exempt properties include numerous full and partial exclusions/exemptions provided.
4. Article XIII A, added to the California Constitution by Proposition 13 in 1978, fixed the basis for valuation of property subject to taxes at the full cash value. Additionally, Proposition 13 limits the property tax rate to 1% of assessed value, plus the rate necessary to fund local voter-approved bonds and special assessments.
